

Dressing

Triflex Micro Chips

Product information

Applications

Triflex Micro Chips are used for applying "Chips Design" surface designs with Triflex systems. They are a decorative dressing material with an acrylate copolymer base.

Pack size

Drum

2.00 kg Triflex Micro Chips

Colours

7030 Stone grey
8012 Red brown
9005 Black
9010 White

Storage

Store in a cool, dry place. Keep container away from direct sunlight when in storage and on the construction site.

Conditions for use

The Triflex Micro Chips, previously mixed 1 : 1, are blown into the still-wet finish with a funnel spray gun. If any upturns, details, etc. have been waterproofed, the Micro Chips must be applied to these areas prior to finishing.

Material consumption

The volume is at least 0.05 kg/m², on a smooth, even surface, depending on how densely the chips are applied.

General notes

We guarantee the consistently high quality of our products. Non-Triflex products must not be used with Triflex systems.

The advice we give in relation to the application of our products is based on extensive development and many years of experience, and is correct to the best of our knowledge. Given the multitude of on-site requirements, under the most varied of conditions, the user is required to test the product's suitability for its respective purpose. Technical information is subject to change without notice in the interests of technical advancement or enhancement of our products.
